The professional element made preparations on Saturday to take advantage of any further improvement in prices that might take place ment that it was expected would develop urday's market. On a number of occa heretofore the trading element has profited by selling stocks on a Monday morning bulge; but operations of that character to-day were successful in only a few stocks, notably Missouri Pacific, United States Rubber and Sugar Refining. They were successful in those stocks only because they were affected by specific developments, none of which, so far as can be learned, is serious, but in default of any special demand for the stocks named the bears were able to make a good deal of capital out of the incidents ferred to. It appears that there is a trade dis agreement between the United States Rubber Company and one of its competitors, and enough importance was given to it in certain quarters to depress the price of Rubber common over 2 points on very light transactions. A subsequent recovery left the stock only fractionally lower than on Saturday. The decline in Missouri Pacific was a more serious matter, because it was company's credit, which was supplemented by a 1st, a 20..... 9719 25 Union El 1st... 73 9 lower than on Saturday after a recovery of nearly a point had taken place. The selling of Sugar Refining was neither pronounced nor effective on, when the sugar schedules of intil the afterno the new tariff bill were made public. It was assumed by a portion of the speculative community, at least, that the proposed tariff would work to the disadvantage of refiners. The first comment that suggests itself is that the sugar schedules have not yet been enacted, and that the refiners have always heretofore found a sufficient number of influential friends in Washington who have assisted

> are engaged. The market as a whole furnished unmistakable evidence of increasing substantial support. This was most pronounced in the so-called Vander-bilt shares. The demand for those shares was shifted to an extent from Lake Shore and New York Central, which have enjoyed material adances, to Northwestern, Chesapeake and Ohio; C., C., C. and St. Louis; the so-called 'Nickle Plate" stocks, and Michigan Central. The upward movement in Omaha common ontinues, and that stock, together with the others mentioned, with the single exception of Chesapeake and Ohio, closed a point or more above the final figures of Saturday, St. Paul and C., B. and Quincy, though fairly active, fluctuated within comparatively narrow limits. Consolidated Gas received more attention than for some time past, and sold at the high est price since the new journalism attacks upon the gas industry in this city and Brooklyn. The volume of trading, both in stocks and in bonds, was the largest ince March 4. London appeared to take very little interest in the speculation here, its opera tors being apparently more intent upon watching for the outcome of the complications in th Levant. Outside of the security market, the most noteworthy occurrence was the large amount of money paid into the Sub-Treasury today on account of customs. The total re-ceipts from that source were \$2,267, 979, the largest on any one day in the history of the Custom House. The banks made special deposits in the Sub-Treasury for account of their importing customers to the amount of \$3,024,000. The chances are that the payments on account of customs will now begin to fall off, for the unusually large amount of duties paid during the last week has resulted from fears that the proposed new tariff might be made effective from the day on which the bill was introduced into Congress.

UNION PACIFIC RAILWAY CO. Six Per Cent. Collateral Trust Notes.

23 WALL STREET, NEW YORK, March 16, 1897. 69,000 To the Holders of Union Pacific Railway Company Six Per Cent. Cellateral Trust Notes Secured by Indenture of September 4, 1891.

At the request of holders of large amounts of the above-described notes, we have been engaged for some time past in preparing a plan by which the de-sire of certain noteholders for immediate cash pay-ment shall be met, and at the same time the remaining noteholders and other parties (in consideration of an allowance of preferred stock of the reorganized Union Pacific Railway Company, as hereinafter men Union Pavific Railway Company, as hereinater men-tioned), shall arrange to take over the collateral which is piedged for their present debt, and to itaus-date the same within a definite period, in such mass-ner as shall avoid any unnecessary disintegration of

the Union Pacific system.

In furtherance of these purposes and after long negotiations, and with the co-operation of the Committee consisting of Messra Moore, Alexander, and Atkins, an agreement has been reached with the Union Pacific Reorganization Committee providing that the present notes shall be deposited with us; the depositor receiving a new Certificate of \$1,000 for each \$1,000 note so deposited. These new Certificates same as the amount of notes now outstanding. The deposited notes will be used by us for the purpose of foreclosing the present trust and of purchasing the collateral held thereunder, so far as deemed advisable, The securities so sequired are to be administered and gradually liquidated by us (substantially in the same way we are now doing) for the p irpose of redeeming the new Certificates after paying interest thereon at 6 per cent. per annum from February 1, 1897. In consideration of the terms of this agreement.

and of the opportunity thereby afforded to the Union Pacific Committee to acquire all or say of the proper-tics held by us for these new Certificates, that Committee agrees that the reorganized Union Pacific Com-pany shall pay to each Certificate holder 15 per cent. par value in its new preferred stock when issued. If, by February 1, 1902, there shall not have been realized a sum in cash (in addition to said preferred stock) equal to the par of the new Certificates with interess accrued to that date, then all the securities shall be sold, and the proceeds, to the necessary extent, shall be applied toward such payment; or, if insufficient, then, first, to pay all interest, and, secondly, to make a ratable distribution on account of principal. The Union Pacific Reorganization Committee assumes no

responsibility for the result of any such liquidation.

Arrangements have also been made with a Syndicate to underwrite the financial requirements of the plan, and to purchase any notes which the holders may desire to sell rather than to deposit thereunder. Copies of the agreement with the Union Pacific Regreganization Committee may be obtained at our office, and all noteholders are invited to examine same. Those desiring to avail of the arrangement therein set forth are hereby notified to deposit their notes with us, obtaining suitable receipts therefor. Holders who prefer to sell their notes to the Syndscate at par and interest are informed that they may do so at our office.

The right is reserved to terminate either or both e these offers at any time. J. P. MORGAN & CO.

NEW YORK, March 16, 1897. The undersigned Committee, under the Trust Inden-ture of September 4, 1891, between the Union Pacific mend all noteholders to deposit under the above-memtioned plan, as they believe its consummation will be for the best interest of all parties to their trust.

J. PIERPONT MORGAN, JOHN A. STEWART, EDWD. KING, Committee A. R. ORR, R. ELLERY ANDERSON,

NEW YORK, March 16, 1897, The undersigned Committee, under agreement of December 14, 1896, hereby signifies its entire ap-

proval of the above-described arrangement as being for the best interests of the noteholders. All noteholders who have deposited their notes with the Mercantile Trust Company, or with the American Loan and Trust Company, are advised to surrender such receipts to Messrs. J. P. Morgan & Co., and to obtain receipts under the new arrangement. Unless so surrendered they cannot participate in said ar-

rangement.

Helders of existing receipts who do not desire to pursue this course will please present their receipts to the Trust Company which issued same and withdraw their notes. Further action by this Committee is hereby
